

# Plan Together – Experience Exchange!

## German-Israeli Conference Presenting the New Practical Guidebook for Youth Exchange

November 27–29, 2018  
Lutherstadt Wittenberg, Germany

---

Youth associations and youth education experts have been planning German-Israeli encounter programs for more than 60 years. Numerous projects and partnerships for exchange exist for decades and they are maintained by the same or by various group leaders. Good practice is passed on, however, time and again questions emerge in the process of planning the program which to answer is challenging not only for newcomers. How do we find the proper partner organization for an exchange project? Which thematic priority do we want to set and how do we organize a meaningful program appropriate for young people? How do we acquire participants and which young people do we want to reach out to? What role does history play and how do we connect it in a reasonable way with today's societies? How much fun is needed and which project do we want to develop jointly? Which educational methods can we use and how do we take into account young people's increasing diversity of individual and cultural identities? How will we finance the whole project? And after all, how do we communicate those issues with our German/Israeli partner?

The new **practical guidebook for German-Israeli youth exchange *Plan Together – Experience Exchange!*** offers answers and varied suggestions for a diversity-conscious, meaningful and lively organization of German-Israeli exchange programs.

**Now we are going to present it – you are cordially invited!**

The conference addresses group leaders and coordinators of German-Israeli exchange programs in Germany and Israel. Specialists of youth services and educational work are warmly welcomed as well if they are interested in launching encounter programs with Israel or Germany respectively.

BACK TO THE FATHERLAND is the story of young people leaving their home country to try their luck somewhere else. A universal tale in today's globalized world, weren't these young women and men moving from Israel to the countries where their families were persecuted and killed less than a century ago, Germany and Austria.
